

Compilation of FDI and FATS

Central Bank of the Republic of Kosovo

**Workshop on Foreign Affiliates Statistics
Brussels, Belgium**

9 - 10 December 2014

Introduction

- Legal bases
- Data sources of FDI
- Activities of FDI in reporting economy
- Activities of FDI abroad
- Compilation of FATS

Legal baises:

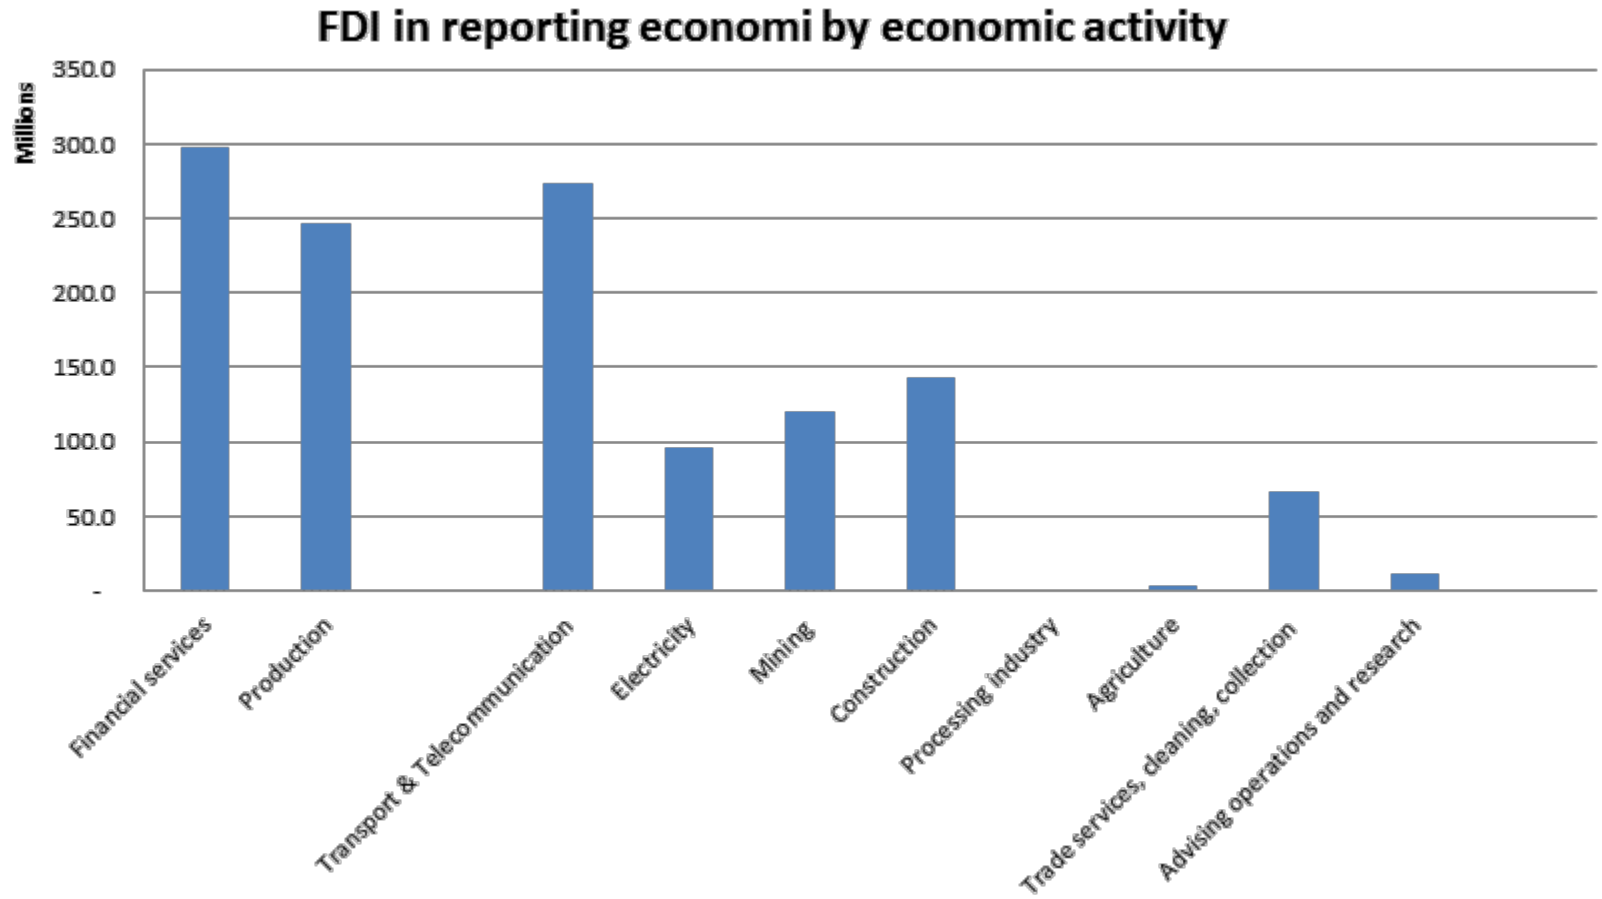

- Central Bank of the Republic of Kosovo based on the law (No.03/L –209, 22 July 2010), is responsible for compiling and publishing Kosovo's balance of payments and related statistics (e.g. the international investment position, external debt, foreign direct investment statistics, and reserve assets).
- In order to **clarify the responsibility** for compiling statistics for Kosovo, CBK has extracted :
 - Regulation on **BOP and IIP statistics**
 - Regulation on **Monetary-Financial Statistics and Financial Accounts Statistics**
 - Regulation on **Payment Instruments Statistics**
- Statistics under the CBK's **direct responsibility** are Monetary and Financial Statistics, and External Sector Statistics.
- **Data sharing** and coordination among data producing agencies
 - regulated with the Law on CBK “ *CBK should collaborate with governmental ministries and agencies in the collection, compilation, and publication of statistics and other relevant information*”;
 - Inter-Institutional Committee on sharing data on ITSG
 - Service Level Agreements
 - Cooperation with the Ministries, such as MTI, MF, ME etc.

Data Sources

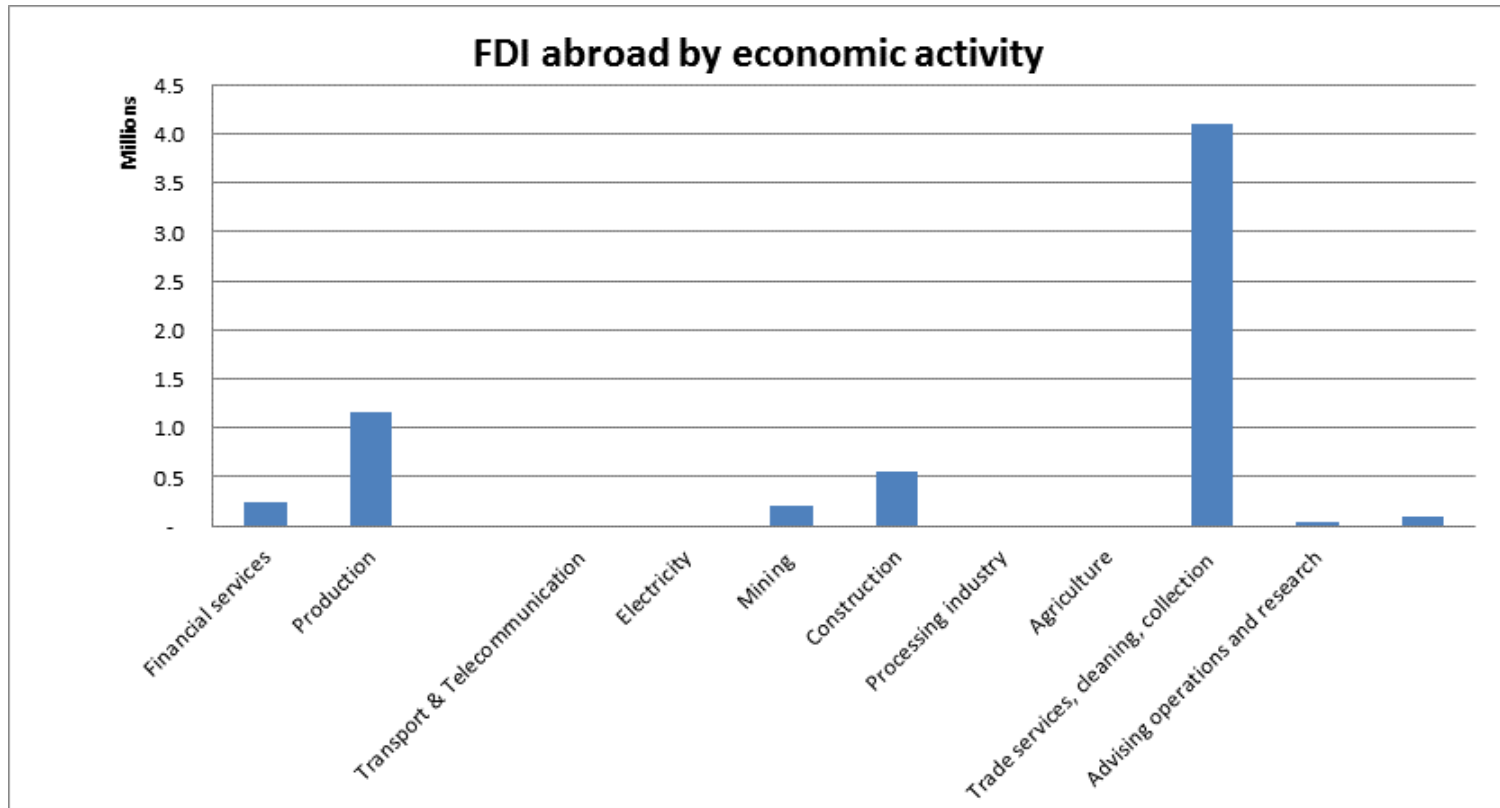

Main data sources for compiling FDI statistics for Kosovo are as follow:

- Kosovo Privatisation Agency of Kosovo (PAK) – has detail data for all companies and the CBK take data only for FDI, the data are reported monthly bases;
- Transactions recorded by the commercial banks (ITRS) - The data are prepared and reported monthly and without threshold;
- Direct Reports (Surveys) - are collected on quarterly basis which is based in international standards;
- Kosovo businesses registration agency - To identify main foreign companies in Kosovo we use information from the Kosovo businesses registration agency in monthly bases;

Activities of FDI in reporting economy

Activities of FDI abroad

Compilation of FATS

- Compilation of FATS is divided into two institutions:
 - Outward - will be compiled by CBK
 - Inward - will be compiled by the Statistics Agency of Kosovo
- Identified - until now we have identified 12 Kosovar companies that have invested outside of Kosovo;
- Reasons for not compiling of FATS:
 - Implementation of BPM6 - in September 2014 CBK has published balance of payments statistics under BPM6 edition, with back data from 2004. Also CBK published explanatory documents for the implementation of BPM6.
 - Kosovar companies have started to invest abroad since 2010, and the values of these investments are not significant.
