The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The reference period which will be taken into account will be the last three financial years for which accounts have been closed.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion

should be included in the tender in a separate document. Proof of the capacity will also have to be provided when requested by the contracting authority. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the services for which these capacities are required. With regard to economic and financial criteria the entities upon whose capacity the tenderer relies become jointly and severally liable for the performance of the contract.
