SELECTION AND AWARD CRITERIA

16. Selection criteria

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the services for which these capacities are required.

With regard to economic and financial criteria the entities upon whose capacity the tenderer relies become jointly and severally liable for the performance of the contract.

The following selection criteria will be applied to the tenderers. **In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole.** The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The tenderer shall not use previous experience which caused breach of contract and termination by a contracting authority as a reference for selection criteria. This is also applicable concerning the previous experience of experts required under a fee-based service contract.

1) Economic and financial capacity of the tenderer (based on item 3 of the tender form). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be **the last 3 financial years for which accounts have been closed.**

- The tenderer's average annual turnover of the last 3 financial years for which the accounts have been closed must be not less than 21,000 EUR equivalent to the budget of the tender.

2) Professional capacity of candidate (based on items 4 and 5 of the tender form). The reference period which will be taken into account will be **the last three years preceding the submission deadline.**

- Criterion 1: the tenderer has, during the the last three years, at least 1 personnel directly employed or otherwise legally contracted on a permanent or non-permanent basis in areas of specialist knowledge related to this contract.
- Criterion 2: the tenderer is not subject to professional conflicting interests which may negatively affect contract performance. The presence of professional conflicting interests shall be examined on the basis of the statements made through the

Declarations on Honour and, where applicable, the statements and other documents submitted.

3) Technical capacity of candidate (based on items 6 of the tender form). The reference period which will be taken into account will be **the last four years preceding the submission deadline**.

- The candidate has completed services under at least 2 contract implemented at any moment during the last four years before submission deadline.
- For each contract, the value of the services completed must not be less than 8,400 EUR (equivalent 40% of the budget of the tender).
- The completed services are in the domain of development and implementation of trade facilitation mechanisms related to veterinary and agri-food products, with particular focus on products of animal origin and live animals.

This means that the service contract the tenderer refers to could have been implemented at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to service contracts completed within the reference period (although started earlier) or to projects partially implemented during, but not yet completed within the reference period. Only the part completed during the reference period will be taken into consideration. This part will have to be supported by documentary evidence (approval of report or deliverable, proof of payment, statement or certificate from the entity which awarded the contract) also detailing its value. If a tenderer has implemented the project in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence (approval of report or deliverable, proof of payment, statement or certificate from the entity which awarded the contract) also detailing its value. If a candidate has implemented the project in a consortium, the part that the candidate has successfully completed must be clear from the documentary evidence (such as consortium agreement and bank transfers between consortium members), together with a description of the nature of the services provided.
