

CLARIFICATION N° 1

CEFTA 2026-12

Redesign and Development of the CEFTA Website

Request for clarifications received on 24 September 2026:

Question 1: Regarding Technical Capacity Criterion 1 for the CEFTA 2026-12 – Redesign and Development of the CEFTA Website tender, we would appreciate your clarification on the following point. "... (data of the question that cannot be published...)". The project was delivered in partnership with a communications agency, and the contract value attributable to our company was below EUR 25,000 "... (data of the question that cannot be published)..." could you please confirm whether this experience may be considered sufficient to satisfy the technical capacity requirement?

Alternatively, please confirm whether the requirement for a contract value "equivalent to this contract (EUR 25,000)" should be understood as a strict minimum of EUR 25,000 attributable to the tenderer itself, irrespective of the direct relevance and scope of the previous experience.

CEFTA Secretariat response:

Please note that, in order to meet the minimum technical capacity requirement, the tenderer must have implemented at least one contract in the field(s) specified in the Contract Notice, with a contract value equivalent to at least-minimum EUR 25,000.

Where the contract was implemented as part of a consortium, the value of the part successfully completed by the tenderer must be equivalent to at least EUR 25,000. The percentage of the contract successfully completed by the tenderer, together with its corresponding value, must be clearly demonstrated by documentary evidence, such as approval of reports or deliverables, proof of payment, or a statement/certificate from the entity that awarded the contract.

Tenderers may also provide additional relevant technical experience in Form D, Tender Submission Form, Section 6, regardless of the value. Such additional experience does not replace the minimum technical capacity requirement described above.
